20. ABSTRACT (Continue on reverse side if necessary and identify by block number) This number in the Morris Swett Library, USAFAS Special Bibliography series pre- sents military writings by Fort Sill Field Artillery School Commandants which are recorded in the unclassified files of the collection. Coverage includes books, lectures, periodical articles, and/or reports. Emphasis is on writings held by the library and not on the total written output of any of the commanders.		

FOREWORD

This number in the Morris Swett Library Special Bibliography Series presents military writings by Fort Sill School Commandants which are recorded in the files of the Library. Coverage is by parts. Part 1 covers dates of office and buildings dedicated to their respective memories at Fort Sill, if applicable. Periodical articles are cited under Part 2A; books, reports, and lectures under Part 2B. Significant administrative actions are covered by Part 2C. Periodical articles are cited by an arbitrarily derived acronym, books and documents by LCC # shown within brackets.

Inclusion of an item, or omission, neither implies USAFAS indorsement, sanction of the compiler's point-of-view, nor does it guarantee accuracy of content. It is important to know that the record indicated herein does not reflect the total of a respective commandants written output, only those on file at the Library. Too, a formal archival section was not established until 1977. This action has greatly enhanced input under Part 2C which records activities taken on behalf of the Field Artillery Branch and/or USAFAS.
